

The Capital District Chapter of the New York State Society of Professional Engineers is offering opportunities for 2010 advertising space in the PE Times bimonthly newsletter and on the website @ [www.capdistpe.org](http://www.capdistpe.org).

The Chapter supports the engineering profession at a local level and keeps members apprised of many construction, engineering and technology issues. Our local membership consists of nearly 300 engineers from private practice, industry, construction, and state and local government agencies.

It is our hope that you will place your advertisement in the newsletter and website, not only for the exposure that your business will receive to a broad spectrum of professionals, but as a means of showing support for the CDCNYSSPE.

**Rates:**

The rate for a business card size advertisement is \$100.00 per year, which also entitles your company to place job-opening postings on our web site. Each advertiser is entitled to place 3 job-opening postings per year, with additional postings costing \$25.00. Non-advertisers will be charged \$50 per posting. Please complete the attached sheet to submit with your advertising. Our Web Site is: [capdistpe.org](http://capdistpe.org). Checks for \$100 should be made payable to CDCNYSSPE.

If you have any questions or would like additional information, please feel free to contact John Steele, PE at (518) 428-5509 ([jsteele@steele-engineering.com](mailto:jsteele@steele-engineering.com)).

**PE TIMES**  
**2010 ADVERTISING INFORMATION**

**Firm Name:** \_\_\_\_\_
